

Project Proposal

Due: Friday, 11.15.24, before 11:59 pm

Instructions

Fill out this form as completely as you can. It will be used by your TA to approve your project. They may ask you to revise it to ensure it meets all the requirements for the project or if they think your project is too ambitious.

1. Names of team members

Hans Anstey
Madelynn Fulmer

2. Project title

Backup directory to .zip

3. What project will do

Backing up a directory into a zip file

4. Project tasks; each task represents a single function (minimum of 6 functions plus `main()`)

Main() takes the users input for the directory to zip
zips the directory
adds the files in the directory to list
outputs the zip to specific place
backup the files
create zip filename
close the zip

5. Plan for testing your code (used closed-box testing and include edge cases if appropriate)
making sure that entire directory has been zipped. All file types work for the zip

Save your Word document as a **pdf** file and submit it via Canvas before 11:59 pm, Friday, 11.15.24.
